

Hydromax

£99

Help your body to rehydrate and recover after exercise with REVIV's Hydromax IV therapy. Hydromax delivers fluids, electrolytes, antioxidants and minerals that could support a faster recovery.

Ultraviv

£129

Developed by a team of doctors, REVIV's Ultraviv* IV therapy combines fluids, antioxidants, minerals, vitamins, electrolytes, alongside prescribed medications to alleviate symptoms and could support your recovery from minor illnesses, such as the common cold, seasonal allergies, nausea, sore throat, or the flu.

Megaboost

£199

REVIV's signature IV therapy, Megaboost is designed to deliver several essential nutrients to support your health and wellness goals. Containing high dose vitamin C, antioxidants, B complex vitamins and other essential nutrients, the Megaboost is REVIV's most nutrient rich infusion to hydrate you and might support your immune function and overall health.

Miniboost

£79

REVIV's Miniboost is the condensed version of REVIV's signature wellness infusion, Megaboost. Delivering vitamin B12 and vitamin C, alongside antioxidant, the Miniboost offers similar benefits to its popular counterpart, in an economical size for speedy delivery. Ideal for those who are time pressed, the Miniboost could help to recharge energy levels and support immunity.

Vitaglow

£199

REVIV's anti-aging IV therapy might help unlock younger looking skin. Containing a high dose of the body's master antioxidant glutathione, delivered alongside vitamin C, the Vitaglow could support detoxification and promotes cellular repair, potentially leaving you with more energy and healthier looking skin, hair and nails.

Royal Flush

£349

REVIV's premium, recovery IV therapy, Royal Flush* builds upon REVIV's Ultraviv therapy, designed to aid recovery from minor illnesses, delivering additional important nutrients, antioxidants, and hydration. REVIV's Royal flush therapy could help to support minor illnesses, such as the common cold, seasonal allergies, nausea, sore throat, or the flu.

Vitamin B12

£29

Whether you are looking to supplement your diet or manage your B12 deficiency, this vitamin injection could help. As well as giving you a natural energy boost it could assist to strengthen your immune system and could aid your body in regulating sleep, mood and appetite cycles. Delivered via a muscle, the Vitamin B12 injection* bypasses the digestive system for a more immediate effect.

Slimboost

£39

REVIV's Slimboost* booster shot combines lipotropic nutrients, which may help to promote the removal of fat from the liver and reduce the production of fat, with vitamin B12. Slimboost aims to support metabolism, improve energy levels and could also help to regulate sleep, mood and appetite cycles.

Vitaboost

£39

REVIV's glutathione booster shot, Vitaboost* could help you to achieve softer, clearer and brighter looking skin. Glutathione is the body's main antioxidant, helping to prevent and reverse the effects of free radical damage that can accumulate from stress, everyday life and exposure to chemicals and toxins, such as pollution.
